A complete testing solution, supplied ready for use with all necessary equipment:

- Aluminium air powered diaphragm water pump
- Air hose for pump supply
- 16 way manifold for controlled water filling
- Suction Fill Hose
- Discharge Hose
- Filling Hose Set - 4 x 6m - 4 x 5m - 4 x 4m - 4 x 3.5m
- 16 x 375kg Lifeboat test bags

Supplied in 2 x rigid plastic pallet boxes - 1200 x 1000 x 760mm

JWA lifeboat test kits are a complete solution for the safe, efficient and accurate water weight load testing of lifeboats, walkways & structures. Durable, easily handled and with a wipe clean surface. JWA bags are fabricated from a tough PVC fabric with a load bearing polyester scrim, coated with PVC for durability & UV resistance. Bag Sizes from 75kg to 500kg available.

Our hoses, manifold and pumps are all precision made from the highest quality materials to ensure durability and value for money. Supplied complete in a fork lift/crane sling compatible, heavy duty plastic transit case c/w instructions for use and certification as required.

Renowned the world over, JW Automarine has led the way in subsea and surface recovery & deployment airbags since 1972. Manufactured in the UK, our experienced technicians use the highest quality fabrics and materials to produce a product that can be relied upon in the harshest of environments.

JW Automarine supplies only the highest levels of service and support, as you would expect from a specialist British manufacturing company.
