JW Automarine - Welded PVC & PU Manufacturing Specialist

JWA Modular Pillow Bag - MPB Pillow Liftbag for Shallow Water Recovery & Towing Operations

JWA Modular Pillow Bags

MPBC125 - 125kg/275lb

MPBC250 - 250kg/550lb

MPBC500 - 500kg/1100lb

MPBC1000 - 1000kg/2200lb

Fitted with a low pressure, high volume C7 inflate/deflate valve and automatic Pressure relief valve. The Forces specification has additional 1/2" high pressure valve.

The JWA MPB is designed for shallow water recovery and emergency floatation of vehicles, aircraft, vessels and more. Its modular design, which can be orientated vertically or horizontally, allows for a wide variety of rigging set ups and configurations. Supplied complete and ready for use with manual override Pressure Relief Valves for buoyancy control (set at 2 PSI above ambient) and an inflate/deflate valve. JWA can also customize the product to include air cylinder sleeves and a range of valves and connectors.

Fabricated from tough PVC fabric, with a load bearing structural polyester scrim coated on both sides with PVC for durability & UV resistance. Radio Frequency welded seams for strength and integrity, JWA also offers a fully bespoke solution to your needs.

Manufactured in accordance with IMCA D-016 Rev 5:2022 requirements, achieving an industry standard safe working load ratio. Supplied complete with user manual and service record book.

Renowned the world over, JW Automarine has led the way in subsea and surface recovery & deployment airbags since 1972. Manufactured in the UK, our experienced technicians use the highest quality fabrics and materials to produce a product that can be relied upon in the harshest of environments.

JW Automarine supplies only the highest levels of service and support, as you would expect from a specialist British manufacturing company.
