

GRINDER

AS 23

Disc diameter 230 mm (9")

- *Unique, extremely robust DOA hydraulic motor with high efficiency, keeps the speed even with great effort on the disc*
- *Possibility of operating at 20 or 30 L/min of hydraulic flow (to be specified on order)*
- *A few moving parts, constantly lubricated, ensure reliability and unbeatable longevity of operation*
- *High counter pressure tolerance allows the use of long pipes*
- *Auxiliary handle and adjustable casing cover*

Available in underwater version

AS23 is a compact angular grinde/cut of saw, the hydraulic functioning assures power, quietness, long operative life and maximum safety thanks to the implicit impossibility of causing electric shocks. For these characteristics **AS23** is irreplaceable in external works with presence of water, in the maintenance of utilities networks, in metal brushing for preparation of welding , in works inside the excavation and in the UNDERWATER WORKS. Mounts standard discs with diameter 23 cm or metal brushes for scrubbing or cleaning ship hulls and propellers from marine formations. With cutting disc **AS23** becomes a precise cut off saw which manoeuvrability allows complete rotation around large pipes easing the cut in narrow spaces.

TECHNICAL CHARACTERISTICS	AS 23
Weight (kg)	5
Dimension LxPxH (cm)	32x25
Flow L/min	20-30 (specification at the order)
Pressure Bar	140-180
Disc mm	230 diameter - hole mm 22-23
Disc speed Land model	5500@ 30 L/min
Disc speed underwater model	2200@ 30 L/min
Disc cutting capacity as saw	50 mm
